

# Spirit in Community

## Calling Forth Our Gifts

Discerning, exploring and embodying our unique participation in the Body of Christ is an ongoing process. It's a privilege and joined joy to gather with others along the way to play with possibilities and to see and be seen with new eyes.

Our guide for this 3 session journey is the Rev. Shirley Chan, a UCC and Disciples minister who has served interim and called pastorates plus college and elder chaplaincies. She has embraced a healing ministry including massage therapy, spiritual direction and many cross-cultural energetic healing modalities.

Shirley's holistic and global perspective will carry us into fresh experiences and conversations for identifying and responding to God's call in our lives.

Save your seat for inner excursions to the wisdom of Africa, Ireland, India, Sudan, South America, the Middle East, Europe and the ever-exotic USA.
